E. **MASTER SOLICITATION:** This is a Master Solicitation containing the terms and conditions essential for offering on this and all supplemental solicitations that may be issued for this program throughout the ordering period. Please retain this document for reference.

F. **CONTRACT TYPE:** Any contract awarded as a result of this solicitation will be a "REQUIREMENTS TYPE -FIXED PRICE WITH ECONOMIC PRICE ADJUSTMENT" contract. Please refer to Clauses I84, REQUIREMENTS, and I86.03, DELIVERY-ORDER LIMITATIONS.

G. **AMENDMENTS:** Offerors must acknowledge receipt of any and all amendments to this solicitation by signing and returning the amendment with its offer.

H. **ECONOMIC PRICE ADJUSTMENT (EPA):** This solicitation contains two economic price adjustment provisions. DESC proposes that all offerors consider using Lundberg as the reference publication for gasoline items only (see Clause B19.19). All other items should be based on the offeror's established company postings (see Clause B19.27). Offerors not wishing to use Lundberg as a reference publication for escalating / de-escalating gasoline prices may use their own company postings. However, regardless of which publication or company posting is used, all offerors should ensure that their initial proposals are based on the reference price in effect on 24 Aug 98. Offerors are requested to complete the Offeror Pricing Sheets (Attachment III – an excel document) as part of their initial proposal. Additionally, offerors proposing to use company postings are required to complete the posting history worksheet (Attachment I) for each product being offered.

I. **BEST OVERALL VALUE:** Please be advised that the Government will now be awarding contracts to the responsible offeror(s) that represent the "Best Overall Value". The Government will evaluate each offeror's record of past performance, the offeror's commitment to using small, small disadvantaged, and women-owned small businesses in the performance of any resultant contract, as well as price and other price related factors. All offerors are required to complete the Contractor Performance Data Sheet (Attachment II) and to submit a written socioeconomic plan. For more information, your attention is invited to the following clauses:

L2.01-1 -- PROPOSAL PREPARATION INSTRUCTIONS AND PAST PERFORMANCE SUBMISSION
M72.02 -- EVALUATION FACTORS FOR BEST OVERALL VALUE

J. **SMALL BUSINESSES:** Any questions regarding Small Businesses and Small Disadvantaged Businesses should be directed to Mrs. Kathy Williams, (703) 767-9463.

K. **GASOHOL / GASOLINE:** If offering on alternate GASOHOL/GASOLINE items, please be aware that offers may be submitted on gasohol or gasoline, or both. However, award will be made either to gasohol or gasoline based on the lowest overall cost to the Government. Gasohol cannot be substituted for gasoline or vice versa. The product awarded "gasohol or gasoline" will be delivered for the entire contract performance period.

L. **TAX INFORMATION:** Please refer to Clauses I28.01, FEDERAL, STATE AND LOCAL TAXES; I28.02-2, FEDERAL, STATE, AND LOCAL TAXES EXCLUDED FROM CONTRACT PRICE; and I28.03-2, TAX EXEMPTION CERTIFICATES, for specific guidance regarding taxes and fees that are to be included or excluded from your offer price. The taxes addressed in this solicitation are merely examples of the types involved and are not intended to be a complete list. The accuracy of the list is not guaranteed. **IT IS THE OFFEROR'S RESPONSIBILITY TO ENSURE ALL APPLICABLE TAXES AND FEES ARE INCLUDED OR EXCLUDED FROM ITS OFFER PRICE.**

M. Any contract awarded to a contractor who at the time of award was suspended, debarred, or ineligible for receipt of contract with Government Agencies, or in receipt of a notice of proposed debarment from any Government Agency, is voidable at the option of the Government.

N. **COMMERCIAL AND GOVERNMENT ENTITY (CAGE) CODE REPORTING:** Please insert your CAGE Code in Block 17a of Standard Form 1449. If you have a current Government contract (or previously had a Government contract) and do not know what the company's CAGE Code is, please contact Pam Griffith at (703) 767-9533. (v) Terms of any express warranty;

(vi) Price and any discount terms; and

(vii) A completed copy of the representations and certifications in the Offeror Submission Package.

(3) **IFBs ONLY.**

(ii) **EVALUATION - Net Payment Terms.** Offers under an IFB that include net payment terms less than 30 days will be determined nonresponsive.

L2.05-5 CONT'D**(4) RFPs ONLY.**

(i) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or that reject the terms and conditions of the solicitation may be excluded from consideration.

(ii) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(c) STANDARD INDUSTRIAL CLASSIFICATION (SIC) CODE AND SMALL BUSINESS SIZE STANDARD.

The SIC code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449).

However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(d) PERIOD FOR ACCEPTANCE OF OFFERS. The offeror agrees to hold the prices in its offer firm for 120 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(e) PRODUCT SAMPLES. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(f) MULTIPLE OFFERS. Offerors are encouraged to submit multiple offers presenting alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(g) LATE OFFERS.

(1) FOR IFBs. See the LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF BIDS provision in Addendum 1.

(2) FOR RFPs.

(i) Any proposal received at the office designated in the solicitation after the exact time specified for receipt of offers will not be considered unless it is received before award is made and--

(A) It was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th);

(B) It was sent by mail (or telegram or facsimile, if authorized) or hand-carried (including delivery by a commercial carrier) if it is determined by the Government that the late receipt was due primarily to Government mishandling after receipt at the Government installation;

(C) It was sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals. The term **working days** excludes weekends and U.S. Federal holidays;

(D) It was transmitted through an electronic commerce method authorized by the solicitation and was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals;

(E) There is acceptable evidence to establish that it was received at the activity designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers, and the Contracting Officer determines that accepting the late offer would not unduly delay the procurement; or

(F) It is the only proposal received.

(ii) Any modification or revision of a proposal or response to request for information, including any final proposal revision, is subject to the same conditions as in subparagraphs (c)(3)(i)(A) through (c)(3)(i)(E) of this provision.

(iii) The only acceptable evidence to establish the date of mailing of a late proposal or modification or revision sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date or the proposal, response to a request for information, or modification or revision shall be processed as if mailed late. **Postmark** means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, offeror or respondents should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(iv) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(v) The only acceptable evidence to establish the date of mailing of a late offer, modification or revision, or withdrawal sent by Express mail Next Day Service-Post Office to Addressee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service-Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. **Postmark** has the same meaning as defined in paragraph (c)(3)(iii) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, offerors or respondents should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(vi) Notwithstanding paragraph (c)(3)(i) of this provision, a late modification or revision of an otherwise successful proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

L2.05-5 CONT'D

(vii) Proposals may be withdrawn by written notice or telegram (including mailgram) received at any time before award. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the FACSIMILE PROPOSALS provision. Proposals may be withdrawn in person by an offeror or an authorized representative, if the representative's identity is made known and the representative signs a receipt for the proposal before award.

(viii) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume. If no time is specified in the solicitation, the time for receipt is _____, local time for the designated Government office.

(h) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(i) Proposals submitted in response to this solicitation shall be in English and in U.S. dollars unless otherwise permitted by the solicitation.

(j) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(k) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(l) CONTRACT AWARD.

(1) RFPs ONLY (not applicable to IFBs).

(i) While the Government intends to evaluate offers and award a contract without discussions, it reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

(ii) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(iii) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(2) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, cost or price and other factors (including subfactors) specified elsewhere in this solicitation, considered.

(3) The Government may reject any or all offers if such action is in the Government's interest.

(4) The Government may waive informalities and minor irregularities in offers received.

(5) The Government may accept any item or group of items of a proposal, unless the offeror qualifies the proposal by specific limitations. Unless otherwise provided in the Schedule, proposals may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(6) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time specified in the offer shall result in a binding contract without further action by either party.

(7) The Government may disclose the following information in postaward debriefings to other offerors:

(i) The overall evaluated cost or price and technical rating of the successful offeror;

(ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

(iii) A summary of the rationale for award; and

(iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

(m) AVAILABILITY OF REQUIREMENTS DOCUMENTS CITED IN THE SOLICITATION.

(b) If the offeror, before bid opening (or the closing date specified for receipt of offers), fails to indicate any shipping point or plant, the Government will evaluate the offer on the basis of delivery from the plant at which the contract will be performed, as indicated in the offer. If no plant is indicated in the offer, the offer will be evaluated on the basis of delivery from the Contractor's business address indicated in the offer.

(c) If the offeror uses a shipping point other than that which has been used by the Government as a basis for the evaluation of offers, any increase of transportation costs shall be borne by the Contractor and any savings shall revert to the Government. (FAR 52.247-46)

L117 NOTIFICATION OF TRANSPORTATION COMPANY TO BE UTILIZED IN THE DELIVERY OF PRODUCT (DOMESTIC PC&S) (DESC JUN 1997)

[] Check here if not subcontracting with a transportation company in the performance of any resultant contract.

(a) In the performance of any resultant contract, offeror agrees not to utilize transportation companies that have been debarred or suspended, are ineligible for receipt of contracts with Government agencies, are in receipt of a notice of proposed debarment or ineligibility from any Government agency, or are otherwise ineligible under Federal programs. Offerors shall submit the name, address, and telephone number of the transportation company(ies) that will be utilized in the performance of any resultant contract. In addition, it is requested that offerors provide the State(s) in which the transporter is authorized to conduct business.

(b) The information provided will not be used in the evaluation of offer prices. However, the information is subject to review by the Contracting Officer and could result in a nonresponsibility determination. Failure to provide the requested information may also render the offeror nonresponsible.

(c) Should any of the specified information change prior to award, offerors are required to provide the Contracting Officer with the updated information (also see the NOTIFICATION OF CHANGE IN TRANSPORTATION COMPANY clause in Addendum II).

L203 HANDCARRIED OFFERS AND EXPRESS DELIVERY SERVICE (DESC JAN 1998)

(a) Any handcarried offer must be received at the depository indicated on the Standard Form (SF) 33 or SF 1449 of this solicitation by the date and time specified for receipt of offers. Evidence to establish the time of receipt at the Government installation is the time/date stamp of that installation on the solicitation wrapper or other documentary evidence of receipt maintained by the installation.

(b) Offers delivered by an express delivery service will be considered "handcarried." Therefore, bidders/offers that respond to this solicitation using an express delivery service must ensure that the express delivery service "handcarries" the offer to the depository indicated on the SF 33 or SF 1449.

(c) The term **express delivery service** does not include Express Mail delivered by the United States Postal Service. Express Mail will be considered "mail" under the LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF BIDS provision or the Late Offers paragraph of the INSTRUCTIONS TO OFFERORS - COMMERCIAL ITEMS or INSTRUCTIONS TO OFFERORS - COMPETITIVE ACQUISITIONS provision.

(DESC 52.252-9F01)

M3.01 EVALUATION OF OFFERS WHERE UNCOMMON ESCALATORS ARE USED (DESC JAN 1998)

(a) **FOR EVALUATION PURPOSES ONLY**, an evaluation factor will be applied to the Final Revised Proposal (FRP) prices of those items in which uncommon escalators are proposed as a basis for economic price adjustments. The evaluation factor will establish a commonality among the different postings or publications offered in order to ensure that all offerors are evaluated on an equal basis.

(b) The offeror's margin (plus or minus) will be established as the difference between the FRP price and the Final Revised reference price. The margin will then be added to the 12-month average of the posting or publication being proposed to determine the evaluated price. The 12-month average will be calculated over the most recent complete 12-month period prior to the established reference date (i.e., if reference date is August 22, 1994, then the 12-month period would be August 1993 - July 1994).

M11.02 EVALUATION - F.O.B. ORIGIN (ALASKA/HAWAII) (DESC APR 1984)

Land methods of transportation by regulated common carrier are the normal means of transportation used by the Government for shipment within the States of Alaska and Hawaii. Accordingly, for the purpose of evaluating offers, only these methods will be considered in establishing the cost of transportation between offeror's shipping point and destination (tentative or firm, whichever is applicable) in the States of Alaska and Hawaii. This transportation cost will be added to the offer price in determining the overall cost of the supplies to the Government. When tentative destinations are indicated, they will be used only for evaluation purposes, the Government having the right to use any other means of transportation or any other destination at the time of shipment.

M63.01 EVALUATION OF OFFERS FOR ALTERNATE PRODUCT (PC&S) (DESC DEC 1993)

(a) Where an activity can accept either gasohol or gasoline, the item numbers and delivery narratives in the Schedule will be shown for each type product. Offerors may offer on either or both products. Any award will be made for the product that receives the lowest evaluated offer. The Government will use an evaluation factor based on the difference between the Federal Excise Tax (FET) for gasoline and gasohol at the prevailing rate on the date of bid opening or closing of negotiations. This difference, adjusted by the anticipated percentage of on-highway use as shown in the delivery schedule, will be deducted from the gasohol offered price(s) prior to the application of other applicable evaluation criteria.

(b) Do not include the FET for either product in your offer price.

(DESC 52.214-9F02)

M72 EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DESC APR 1997)

- (a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.
- (b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either--
 - (1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or
 - (2) The exception/deviation is acceptable.
- (c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for consideration provided the offeror clearly indicates, by attachment to the offer, the extent to which any product offered differs from the required specification(s).
- (d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates, by attachment to the offer, the extent to which its offer differs from those requirements.
- (e) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.

M72.02 EVALUATION FACTORS FOR BEST OVERALL VALUE (DOMESTIC) (DESC MAR 1998)

- (a) **APPLICATION.** This provision applies only after all price evaluation factors have been considered.
- (b) **BASIS OF AWARD.**
 - (1) The Government will award contracts to the responsible offeror(s) whose offer conforms to the solicitation and that represents the best overall value. The Government will determine best overall value on the basis of an integrated assessment of the following evaluation factors, which are in descending order of importance:
 - (i) Price;
 - (ii) Past Performance; and
 - (iii) Socioeconomic Commitment.

The relative influence of price, past performance, and socioeconomic commitment will depend on the differences among the competing offerors, and not on any predetermined, fixed, weighted arrangements or trade-off formula. Price is more important than past performance and price combined with past performance is significantly more important than socioeconomic commitment.
 - (2) In determining best overall value, the Government will evaluate and rate each offeror's past performance based on pre-established standards. The offer(s) selected as best value will represent the best tradeoff to the Government among price, past performance, and socioeconomic commitment. The Government may make award to other than the lowest priced offeror; however, the Government will not pay a premium that it considers disproportionate to the benefits associated with the offeror's record of past performance and socioeconomic commitment.
- (c) **ACCEPTABILITY OF OFFERS.** An offer will be considered acceptable if, and only if, an offeror agrees to the terms and conditions in the solicitation, or if the Government has accepted any exceptions submitted with the offer.
- (d) **EVALUATION OF PAST PERFORMANCE.**
 - (1) The Government will evaluate, based on pre-established standards, the quality of the offeror's past performance. This may include any aspect of past performance related to this solicitation. The assessment of the offeror's past performance will be used as a means of evaluating the offeror's ability to meet the solicitation requirements. A record of poor past performance may be considered an indication that the offeror has failed to conform to contract requirements and/or to standards of good workmanship; to adhere to contract schedules, including the administrative aspects of performance; to provide reasonable and cooperative behavior and commitment to customer satisfaction; and/or to display a business-like concern for the interests of the customer. Offerors shall be afforded an opportunity to address unfavorable reports of past performance, and the offeror's response, or lack thereof, will be taken into consideration. Recent contracts may be examined to ensure that corrective action measures have been put in place to prevent the recurrence of past performance problems. Prompt actions taken to correct performance problems may be considered a reflection of management concern for customer satisfaction; however, such action may not mitigate all negative performance trends. Additionally, a record of satisfactory or exceptional past performance will not result in a favorable assessment of an otherwise unacceptable proposal. Offerors lacking relevant past performance history or for which past performance information is not available will not be evaluated favorably or unfavorably on past performance.
 - (2) The Government reserves the right to consider any information available to it in evaluating an offeror's past performance. This includes information obtained from the offeror's references, past and present customers, subcontractors, and any other sources that may have useful information. However, the Government reserves the right not to contact all of the references listed by the offeror. The Government also reserves the right to assess the offeror's past performance based solely on the offeror's performance under an existing DESC contract or a previous DESC contract for work similar to that required by the solicitation.

M72.02 EVALUATION FACTORS FOR BEST OVERALL VALUE (DOMESTIC) (DESC MAR 1998) Cont'd

(3) The subfactors listed below are equal to one another in importance and will be used to evaluate past performance:

- (i) **Quality of Product and Service.** Assessment of the offeror's ability to conform to contract requirements, specifications, and standards of good workmanship.
- (ii) **Schedule.** Assessment of the offeror's ability to meet delivery schedules, to respond to administrative issues in a timely manner, and to complete a contract.
- (iii) **Business Relations.** Assessment of the offeror's commitment to maintaining an acceptable level of performance, customer satisfaction, and meeting small, small disadvantaged, and women-owned business participation goals, as applicable. This includes the offeror's history of reasonable and cooperative behavior, participation in problem identification, and corrective action measures.

(e) **EVALUATION OF SOCIOECONOMIC COMMITMENT.**

(1) The socioeconomic proposal provided by the offeror will be evaluated as follows:

- (i) As a separate factor, for the offeror's proposal under this solicitation; and
- (ii) As an element of the Business Relations subfactor of the Past Performance Factor.

(2) The Government will evaluate, based on pre-established standards, the extent to which an offeror proposes to use small, small disadvantaged, and women-owned small businesses. An offeror that demonstrates greater commitment to partnering and subcontracting with small, small disadvantaged, and women-owned small businesses will receive more favorable ratings. An offeror with higher percentage, complexity level, and variety of participation by small, small disadvantaged, and women-owned small businesses generally will receive more favorable ratings. An offeror's current efforts to develop additional opportunities for small, small disadvantaged, and women-owned small businesses will also be considered.

(3) The offeror's proposal for socioeconomic support will be made a part of any resultant contract for use in determining how well the Contractor adheres to its socioeconomic plan. This plan will be monitored by the cognizant Defense Contract Management Command's small business office as a means of assisting the Contracting Officer in determining how well the Contractor performs. This determination may be used in future best value decisions.

(f) **BEST VALUE DETERMINATION.** After the past performance ratings are determined, a series of paired comparisons will be made between competing offerors for each line item. In making these paired comparisons, the Government will determine the difference in price, past performance, and socioeconomic commitment. If, in any paired comparison, one offeror is superior in past performance and offers the lowest price, then the Government will consider that offeror to represent the better value. But, if the offeror with the superior past performance offers a higher price than the competing offeror, the Government will decide whether the superior performance merits the higher price. If so, then the Government will consider the offeror with superior past performance at a higher price to represent the best value. Otherwise, the Government will consider the competing offeror with the lower price and lower past performance rating to represent a better value. Otherwise, the Government will consider the competing offeror with the lower price and lower past performance rating to represent a better value. If, in any paired comparison, the offerors are equal in the elements of price and past performance, then the offeror with the superior socioeconomic evaluation will represent the better value. The Government will continue to make paired comparisons in this manner until it has identified the offeror that represents the best value based on price, past performance, and socioeconomic commitment. In the event of a tie among all factors and subfactors between two or more offerors considered to represent the best value, the final award decision shall be made by a drawing by lot limited to those offerors. The drawing shall be witnessed by at least three persons, with the names and addresses of the witnesses and supervising official documented in the contract file.

ADDENDUM #2 POSTAWARD CONTRACT CLAUSES

Note: Clause B19.19 is applicable only to offerors utilizing Lundberg as the price escalator for gasoline items.

B19.19 ECONOMIC PRICE ADJUSTMENT (PC&S) (DESC JUN 1997) CONT'D

(4) **FAILURE TO DELIVER.** Notwithstanding any other provisions of this clause, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract, or is the result of an allocation made in accordance with the terms of the ALLOCATION clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(5) **UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT.** The Contractor agrees that the total increase in any contract unit price pursuant to these economic price adjustment provisions shall not exceed 60 percent of the base price in any applicable program year (whether a single year or a multiyear program), except as provided hereafter.

(i) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with an appropriate explanation and documentation as required by the Contracting Officer.

(ii) If an actual increase in the reference price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(d) **EXAMINATION OF RECORDS.** The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause.

(e) **FINAL INVOICE.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

(f) **PUBLICATIONS:** The following publication(s) is (are) used:

LUNDBERG SURVEY
WHOLESALE UNLEADED GASOLINE PRICE AVERAGES
PADD 5, CITY: HONOLULU, HI
CONVENTIONAL GASOLINE, DEALER, REGULAR UNLEADED

(DESC 52.216-9F27)

Note: Clause B19.27 is applicable to offerors utilizing company postings as the price escalator.

**B19.27 ECONOMIC PRICE ADJUSTMENT - ESTABLISHED CATALOG PRICE (ALASKA/HAWAII)
(DESC JUL 1998)**

(a) WARRANTIES. The Contractor warrants that--

(1) The unit prices set forth in this contract do not include allowances for any portion of the contingency covered by this clause; and

(2) The prices to be invoiced hereunder for listed items shall be computed in accordance with the provisions of this clause.

(b) DEFINITIONS. As used throughout this clause, the term--

(1) **Award price** means the unit price offered for the item of supply identified by the item number.

(2) **Established catalog price** is the price with which the award price is to fluctuate. The established catalog price is a price for a commercial item sold in substantial quantities to the general public and is the net price after applying any standard trade discounts offered by the Contractor. Accordingly, changes in the discount shall be treated as a change in the established catalog price, provided such discount is offered in substantial quantities to the general public.

(3) **Date of delivery** means --

(i) FOR TANKER OR BARGE DELIVERIES.

(A) **F.O.B. ORIGIN.** The date and time vessel commences loading.

(B) **F.O.B. DESTINATION.** The date and time vessel commences discharging.

(ii) FOR ALL OTHER TYPES OF DELIVERIES. The date product is received on a truck-by-truck basis.

(c) ADJUSTMENTS.

(1) **NOTIFICATION.** The Contractor shall notify the Contracting Officer of any change in the established catalog price within 15 days from the effective date of such change.

(i) **CHANGE IN SUPPLIER'S PRICE.** The price change notification shall consist of a copy of the Contractor's supplier's notice or invoice, which clearly shows the supplier's name, the increase / decrease in price or invoice price, the applicable product, and the effective date of the change.

(ii) **CHANGE IN CONTRACTOR'S POSTED PRICE.** If the Contractor's posted price changes for reasons other than a change in supplier price, the price change notification shall include written documentation sufficient to justify such change. In the event the Contracting Officer determines the justification insufficient to warrant such a change, the Contractor will be notified within three working days of DESC's receipt of the price change notification. The Contractor shall continue performance under this contract until the situation is resolved in accordance with paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS -- COMMERCIAL ITEMS clause of this contract.

(2) Subject to the provisions of this clause, the prices payable hereunder shall be determined by adding to the award price the same number of cents, or fraction thereof, that the established catalog price increases or decreases, per like unit of measure. All arithmetical calculations, including the final adjusted unit price, shall be rounded to four decimal places.

(3) **MODIFICATIONS.** Any resultant price changes shall be executed by the Contracting Officer through contract modifications in accordance with the following:

(i) The effective date of the price change modification will be the date of the latest posting issued on or prior to the date of delivery.

(ii) **DECREASES.** If the Contractor fails to notify the Contracting Officer of any decrease in the established catalog price within the allotted 15-day period, such decrease shall apply to deliveries made on or after the effective date of such decrease. However, if any overpayment is made to the Contractor as a result of the Contractor's failure to give timely notice to the Contracting Officer of any decrease in the established catalog price, the Contractor shall be charged interest on such overpayment from the date of the overpayment to the date of reimbursement by the Contractor for the overpayment in accordance with paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract.

(iii) **INCREASES.** Any increase in unit price as a result of an increase in the established catalog price shall apply to all deliveries made on or after the effective date of the price change issued by the Contracting Officer. However, no modification incorporating an increase in a contract unit price shall be executed pursuant to this clause until the increase has been verified by the Contracting Officer.

(4) **FAILURE TO DELIVER.** Notwithstanding any other provisions of this clause, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence, within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract, or is the result of an allocation made in accordance with the terms of the ALLOCATION clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.

**B19.27 ECONOMIC PRICE ADJUSTMENT - ESTABLISHED CATALOG PRICE (ALASKA/HAWAII)
(DESC JUL 1998) CONT'D**

(5) **UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT.** The Contractor agrees that the total increase in any contract unit price shall not exceed 60 percent of the award price in any applicable program year (whether a single year or a multiyear program), except as provided hereafter:

(i) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with an appropriate explanation and documentation as required by the Contracting Officer.

(ii) If an actual increase in the established catalog price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(d) **EXAMINATION OF RECORDS.** The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, and other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause.

(e) **FINAL INVOICE.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

(b) Supplies delivered under this contract shall conform to all Federal, State, and local environmental requirements applicable to the geographic location of the receiving activity on the date of delivery. The list of such requirements contained in this contract is not intended to be a complete list, and the Contractor shall be responsible for determining the existence of all such requirements at the time deliveries are made. In the event that a Federal, State, or local environmental requirement is more stringent than a specification contained in this contract, the Contractor shall deliver product which complies with the more stringent requirement. Product which fails to meet the more stringent requirement will be considered to be a nonconforming supply. Product(s) to be supplied shall fully meet the requirements of the applicable specification(s) as cited below.

NOTE: Gasoline Reid Vapor Pressure (RVP) specification requirements are seasonal and vary geographically throughout the United States. Therefore, Contractors are expected to know the local, State, or Federal RVP requirements of areas being supplied and comply with those requirements.

The Unleaded Gasoline items that permit the substitution of Gasohol are identified in the Schedule. Contractors are required to state, for each line item in their offer, whether Gasohol will be provided. Contractors will not be permitted to substitute Unleaded Gasoline under line items awarded as gasohol. Also, Contractors are not permitted to substitute gasohol for gasoline under line items awarded as gasoline, except when Government regulations mandate use of fuel containing an oxygenate for control of carbon monoxide pollution. The QCP shall be established and reviewed for adequacy by the Quality Representative (QR) prior to commencement of production or services. The copy of the QCP provided to the QR shall be in English. An acceptable QCP is required prior to Government inspection and acceptance of supplies or services. The QCP shall be reviewed and updated when deemed necessary. It will be updated anytime that changes are made to the inspection system or as identified by quality problems. The Contractor must sign and date each revision to the QCP and require subcontractors to sign and date each revision to the subcontractor's QCP.

(2) The Contractor shall require subcontractors (unless otherwise instructed by the Government) to provide and maintain inspection systems and QCPs that are acceptable to the Government.

(3) The QCP shall include an identification of key operational positions, a schematic diagram of plant facilities pertinent to the inspection system indicating all inspection points, and a description covering the following operations relating to the supplies to be furnished under the contract:

(a) Records on product supplied to the U.S. Government by the Contractor or subcontractor (including supplier) shall be kept complete and available to the Government during the performance of this contract and for such longer period as may be specified elsewhere in this contract. The Government reserves the right to perform Quality Inspection at all times and places. E35.02 REQUESTS FOR WAIVERS AND DEVIATIONS (DESC JUN 1997)

(a) The following procedures apply to requests for specification waivers.

(1) Requests for waivers and deviations shall be submitted by the Contractor to the Contracting Officer with a copy to the Quality Representative (QR). Each request shall provide the following information: Contractor name; contract number; contract line item and product, if applicable; clause number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and equitable price adjustment offered over the administrative fee. In extraordinary situations, the Contractor may initially submit the request for a deviation or waiver through the cognizant QR to the Contracting Officer or the Contracting Officer's Representative (COR) in the Bulk Fuels Business Unit, Product Technical and Standardization Division, Defense Energy Support Center (DESC). Extraordinary situation requests shall be submitted formally to the Contracting Officer prior to close of business of the next DESC normal workday. As used in this clause, the term "extraordinary situation" means the matter cannot await resolution until the DESC normal workday (0800 to 1630 hours), Monday through Friday - Federal holidays excluded. In addition, if either the Contracting Officer or the COR cannot be reached, the Duty Officer shall be contacted and provided the necessary information to forward to the proper individuals as soon as possible. The Duty Officer's telephone number is (800) 286-7633, (703) 767-8420, or (DSN) 427-8420.

(2) If the waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the waiver being granted. If the situation dictates, a waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS -- COMMERCIAL ITEMS clause of this contract.

(3) If the waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$250 to cover administrative costs, plus any additional cost of Government inspection or tests if reinspection or retest is necessary.

(4) If the waiver is granted modifying this contract but the supplies accepted are nevertheless determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the waiver. If, however, this consideration exceeds \$500, a second contract modification shall be issued reducing the Contractor's obligation to \$500 (the administrative cost of issuing the two required modifications).

(b) When notification of nonconforming supplies is received after the supplies have been accepted, and the Government determines not to exercise its right to reject or to require correction under the INSPECTION OF SUPPLIES clause, then in no event will consideration be less than \$250 to cover administrative costs. This \$250 fee is in addition to--

(1) Consideration commensurate with the extent of nonconforming supplies; and

(2) Cost of Government inspection or tests if reinspection or retest is necessary.

The administrative fee will apply to each claim letter issued for off-specification product delivered to an activity.

THE FOLLOWING CLAUSE, WHEN USED IN POSTS, CAMPS, AND STATIONS CONUS AND ALASKA SOLICITATIONS, APPLIES ONLY TO PRODUCT DELIVERED BY BARGE.

E40 MATERIAL INSPECTION AND RECEIVING REPORT (DEC 1991)

At the time of each delivery of supplies or services under this contract, the Contractor shall prepare and furnish to the Government a Material Inspection and Receiving Report in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense FAR Supplement.

(DFARS 252.246-7000)

F1.01-1 DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS (DESC APR 1997)

IMPORTANT NOTE on EPA TESTING OF UNDERGROUND TANKS. If the "volumetric" method is used for annual EPA testing of underground tanks, the "topping off" of tanks for this test is outside the scope of DESC requirements contracts.

(a) **F.O.B. ORIGIN.** On items calling for delivery at Contractor's refinery, terminal, or bulk plant f.o.b. transport truck, truck and trailer, or tank wagon--

(1) Supplies ordered hereunder shall be delivered, at Contractor's expense, into equipment specified in the Schedule.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

F1.01-1 DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS (DESC APR 1997) CONT'D

(b) **F.O.B. DESTINATION.** On items calling for delivery f.o.b. destination by means of transport truck, truck and trailer, or tank wagon--

(1) The Contractor shall not be required to deliver by transport truck or truck and trailer a quantity less than a full load nor into more than one storage tank, with the following exceptions:

(i) An order placed under an item of this contract calling for delivery by transport truck of motor gasoline, fuel oil, diesel fuel, or kerosene, or, if this procurement is for Central America only, jet fuel, may require delivery of a quantity as low as 5,200 gallons whenever the activity is restricted either by a tank capacity or by a directive from receiving a larger quantity; and

(ii) Where the Schedule provides for multiple drop delivery, the Contractor may be required to deliver into more than one storage tank. Where truck and trailer is the method of delivery specified, the Contractor may, at its option, make delivery by transport truck. In the case of deliveries in Alaska, where truck and trailer or transport truck is the method of delivery specified, the Contractor may, at its option, make delivery by tank wagon.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(3) The Contractor shall not be required to deliver by tank wagon a quantity of less than 575 liters (or 150 gallons) but, at the Government's option, may be required to deliver into more than one storage tank.

(4) When delivery is made by tank wagon, such wagon shall be equipped with pump, meter, and a minimum of 100 feet (30 meters) of hose. Where delivery is made by transport truck or truck and trailer, such delivery equipment shall be equipped with a minimum of 15 feet of hose.

(5) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility, the Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

(6) Unless otherwise provided in the Schedule, free time for unloading trucks, transport trucks, or trucks and trailers shall be unlimited.

(7) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility--

(i) The Contractor shall provide properly maintained delivery equipment and properly trained delivery personnel to reasonably assure that delivery can be made without damage to vegetation and asphalt pavement adjacent to storage facilities being filled. The Contractor's delivery personnel who have not exercised reasonable care and delivery equipment that is poorly maintained may be refused entrance to the installation by the installation Commander.

(ii) The Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

F1.09-1 ANNOTATION OF SHIPPING DOCUMENTS (DESC AUG 1996)

(a) For deliveries when temperature compensating meters are used to determine quantity, the shipping document shall be annotated with the API gravity (or density), net quantity, and a statement that a temperature compensating meter was used to determine quantity.

(b) For deliveries when quantity is determined without volume correction to 60°F (15°C) as permitted in the DETERMINATION OF QUANTITY clause, subparagraph (b), the shipping document shall be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.

(c) For all other deliveries, the shipping document shall be annotated with the gross and net gallons (or gross and net liters), the observed and corrected API gravity (or density), and the temperature at which the product was measured.

F1.09-2 DETERMINATION OF QUANTITY (PC&S) (DESC APR 1996)

(a) **QUANTITY.** The quantity of supplies furnished under this contract shall be determined as follows:

(1) **DELIVERIES INTO OR BY TANKER/BARGE.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Shore tank measurements; or
- (b) Calibrated meter.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.**

(A) On items requiring delivery on an f.o.b. destination basis (except for items to be used as ships' bunkers), the quantity shall be determined (at the Government's option) on the basis of receiving shore tank measurements.

(B) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(iii) **F.O.B. VESSEL.**

(A) On items requiring delivery f.o.b. vessel by barge for ships' bunkers, the quantity received will be determined (at the Contractor's option) on the basis of--

- (a) Origin shore tank measurements; or
- (b) By calibrated meter, if the Contractor's facilities are so equipped.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(C) When the vessel is unable to receive any or all of the delivery, the Contractor must immediately notify the DESC Contracting Officer of the circumstances and provide documentation to substantiate the quantity and location where excess product has been off-loaded. The Government will have the right to have a representative present to verify these off-load figures.

(2) **DELIVERIES INTO OR BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Certified capacity tables of the conveyance loaded; or
- (b) Calibrated meter; or
- (c) Weight, using calibrated scales.

(B) The Government has the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.** On items requiring delivery on an f.o.b. destination basis, the quantity shall be determined by one of the following methods:

(A) The Contractor shall provide delivery equipment that enables the receiving activity and the Contractor to determine quantity at destination in the delivery conveyance by one of the following:

- (a) Calibrated meter (in areas where environmental restrictions prohibit the opening of dome hatches prior to, during, or after off-loading, calibrated meter must be used); or
- (b) Certified capacity tables. The tables must be made available at the time of delivery; or
- (c) Certified tank calibration markers. Certified tank calibration markers will not be accepted unless the conveyance is full to the marker and the entire quantity is off-loaded at the receiving activity. This method may not be used for deliveries to Army activities.

(B) If one of the methods in (A) above is not specified in the contract narrative for deliveries by transport truck or truck and trailer, the Contractor may use the net quantity determined at the loading point by a calibrated loading rack meter. This quantity must be mechanically imprinted on the loading rack meter ticket that is generated by the loading rack meter. The Government reserves the right to determine the quantity received in gallons at 60 degrees Fahrenheit (or liters at 15 degrees Centigrade) at time of delivery by any valid means available.

(C) In any case, at the Government's option, quantity may be determined at the receiving activity on the basis of--

- (a) Weight, using calibrated scales; or
- (b) A calibrated meter on the receiving tank system.

(D) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

F1.09-2 DETERMINATION OF QUANTITY (PC&S) (DESC APR 1996) CONT'D**(iii) WATER BOTTOMS.**

- (A) Every delivery must be free of all water bottoms prior to discharge; and
- (B) The Contractor is responsible for their removal and disposal.

(b) **VOLUME CORRECTION.** Volume correction to gallons at 60 degrees Fahrenheit (or liters at 15 degrees Centigrade) is required for--

(1) All product volumes of chemicals, residual fuels, and lubricating oils measured in tank trucks, trucks and trailers, and tank wagons. For this purpose, residual fuels are any products with a viscosity equal to or greater than a regular (not light) No. 4 Fuel Oil (ASTM D 396).

(2) All other volumes of fuels and fuel oils measured in tank trucks, trucks and trailers, and tank wagons which are in excess of 3,500 gallons.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards. Certified capacity tables shall mean capacity tables prepared by an independent inspector or any independent surveyor. In addition, the following specific standards will be used as applicable:

(1) API Manual of Petroleum Measurement Standards Chapter 7, Method of Measuring the Temperature of Petroleum Products (API 2543/ASTM D 1086). In areas where the metric system is used, an equivalent type Centigrade thermometer may be used.

(2) API Manual of Petroleum Measurement Standards Chapter 9, Section 1, Density Determination (ASTM D 1298).

(3) API Manual of Petroleum Standards Chapter 3, Method of Gauging Petroleum Products (API 2545/ASTM D 1085). A water indicating paste (Testmaster, manufactured by Steward Hall Chemical Corp., 222 Washington St., Mount Vernon, NY 10553, or equivalent) capable of providing a reliable sharp color change in water bottoms containing 50% fuel system icing inhibitor (either Ethylene Glycol Monomethyl Ether or Diethylene Glycol Monomethyl Ether as applicable) shall be used for obtaining water cuts in aviation turbine fuels.

(4) API Manual of Petroleum Measurement Standards Chapter 11.1, Volume Correction Factors (API 2540/ASTM D 1250/IP 200). Either the printed version or the computer subroutine version of the standard may be used.

(i) For crude oils, JP4, and Jet B, use Volume I, Tables 5A and 6A (or Volume VII Tables 53A and 54A).

(ii) For lubricating oils, use Volume XIII, Tables 5D and 6D (or Volume XIV, Tables 53D and 54D).

(iii) For all other fuels and fuel oils, use Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B).

(iv) Volume XII, Table 52, shall be used to convert cubic meters at 15 degrees Centigrade to barrels of 60 degrees Fahrenheit, except when this method is restricted by foreign law. Convert liters at 15 degrees Centigrade to cubic meters at 15 degrees Centigrade by dividing by 1,000. Convert gallons at 60 degrees Fahrenheit to barrels at 60 degrees Fahrenheit by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(v) If the original measurement is by weight, using calibrated scales, then--

(A) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60 degrees Fahrenheit.

(B) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60 degrees Fahrenheit.

(vi) For other than crude oils, lubricating oils, fuels, and fuel oils, volume correction shall be made in accordance with the product specification or as stated elsewhere in the solicitation.

(5) API Manual of Petroleum Measurement Standards Chapter 4, Proving Systems. All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent.

(d) UNITS OF QUANTITY.

(1) Depending upon the unit shown in the Schedule, the unit of quantity, as used in this contract, shall be--

(i) The barrel of 42 U.S. gallons;

(ii) The U.S. gallon of 231 cubic inches;

(iii) The long ton of 2,240 pounds;

(iv) The pound of 16 ounces;

(v) The metric ton of 2,204.6 pounds;

(vi) The imperial gallon of 277.42 cubic inches; and

(vii) The liter of 61.026 cubic inches.

(2) Unless otherwise specified in the contract, a reference to gallons shall mean U.S. gallons.

**F3 TRANSPORT TRUCK AND/OR TRUCK AND TRAILER FREE TIME AND DETENTION RATES
(PC&S/COAL) (DESC APR 1998)**

(a) Upon arrival of Contractor's transport truck or truck and trailer, the receiving activity shall promptly designate the delivery point into which the load is to be discharged. Contractor shall be paid for detention beyond free time for delays caused by the Government. A minimum of one hour free time is required.

(1) Free time for unloading a transport truck, excluding multiple drop deliveries, or truck and trailer in excess of one hour: _____.

(2) Rate for detention beyond free time: _____.

The above will not be considered in the evaluation of offers for award.

(b) Notwithstanding the above, the Government is entitled to at least as much free time as is allowed by the common carrier or that the Contractor normally allows its regular commercial customers, whichever is greater. In addition, the Government will not pay more in detention rates than the actual rate charged by the common carrier or the rate the Contractor normally charges its regular commercial customers, whichever is lower. **UNLESS OFFEROR INDICATES OTHERWISE, FREE TIME WILL BE CONSIDERED UNLIMITED.**

(c) **DETENTION COSTS.** Detention costs do not apply to tank wagon or to multiple drop transport truck or truck and trailer deliveries. Detention costs will be the sole responsibility of the activity incurring them. Any invoices for detention costs will be forwarded directly to the activity receiving the product.

(DESC 52.212-9F19)

(2) Delivery Period Begins: 01 JAN 1999 and Ends: 30 days after end of ordering period.

(b) Notwithstanding the foregoing, deliveries prior to the delivery period, made at the option of the Contractor and pursuant to an order by the Government, shall be deemed to have been made under this contract at the applicable contract price(s).

F15 BARGE AND/OR T1 CLASS TANKER DEMURRAGE AND LOADING CONDITIONS (DESC MAR 1994)

Each order will specify the quantity to be delivered, the scheduled delivery date, and the cargo number, and, if then available, the name of the barge and/or T1 Class tanker (herein referred to as "vessel") to be loaded.

(2) The scheduled delivery date may be revised by the Ordering Officer at any time and, unless the Contractor registers objections with the Ordering Officer within 72 hours of receipt of such revised scheduled delivery date, such revised date shall become the new agreed scheduled delivery date. At the time the Contractor registers any such objections, the Contractor must provide a date, subsequent to the date proposed by the Ordering Officer, which represents the earliest date the Contractor can provide a berth. The Ordering Officer must confirm or reject the alternate date provided by the Contractor within 72 hours of receipt of the Contractor's objection. If the Ordering Officer chooses to accept the alternate date provided in the Contractor's objection, such revised date shall become the new agreed scheduled delivery date. If the Ordering Officer chooses to reject the alternate date provided by the Contractor, the scheduled delivery date will return to the previously scheduled delivery date.

(3) All communications regarding the establishment and revision of the scheduled delivery date and objections thereto shall be set down in writing at such time or promptly confirmed in writing.

(b) EXPECTED TIME OF ARRIVAL.

(1) **FOR WESTPAC/EUR/MED SHUTTLE OPERATIONS.** The vessel designated to lift the cargo will notify the Contractor (at the telex number provided by the Contractor or cause it to be notified when the Contractor does not provide a telex number) of its name and the expected hour of arrival of the barge at least 72 hours before the expected time of arrival and update this notification at 48 and 24 hour intervals before expected arrival.

(2) **FOR ALL OTHER VESSELS.** The vessel designated to lift the cargo will notify the Contractor at the telex number provided by the Contractor or cause it to be notified when the Contractor does not provide a telex number of the name and the expected hour of arrival of the vessel at least 24 hours before the expected time of arrival.

(c) **LAYTIME.** The Contractor shall provide as soon as possible, but within 3 hours after receipt of notice of readiness to load from the vessel designated to load the cargo, a reachable berth free of cost to the Government, where the vessel can be safely moored and remain afloat at all times, for loading of the ordered supplies. Laytime shall commence, berth or no berth, either at the expiration of 3 hours after notice of readiness, or immediately when the vessel moors alongside, with or without notice of readiness, whichever first occurs; PROVIDED, however, that--

(1) If the vessel is tendered for loading on a date earlier than the last scheduled delivery date as determined pursuant to paragraph (a) above, the Government scheduled vessel shall be loaded as soon as possible in its proper turn with other vessels, and laytime shall not commence until the vessel moors alongside or at 3:00 a.m. local time on the last agreed schedule delivery date, whichever first occurs.

(2) If the vessel is tendered for loading later than noon on the day following the last agreed scheduled delivery date, as determined pursuant to paragraph (a) above, the vessel shall be loaded as soon as possible in its proper turn with other vessels. Laytime shall commence when the vessel moors alongside, provided a good faith effort is made by the Contractor to have the vessel loaded as soon as is reasonably possible under the circumstances prevailing at the time.

(3) Laytime shall continue 24 hours a day, 7 days a week, without interruption from its commencement until loading of the vessel is completed and the vessel has been released for sailing by the Government Quality Representative.

(d) ALLOWED LAYTIME.

(1) **BASIC ALLOWED LAYTIME.** For cargo movements under DESC bulk petroleum contracts, the Contractor shall be allowed 1 hour for each 2,000 barrels loaded.

(2) INCREASES TO BASIC LAYTIME.

(i) If, after laytime commences, the condition of the vessel to be loaded does not permit loading, such basic allowed laytime shall be increased by the duration of such delay.

(ii) If the vessel is delayed in reaching its berth and the delay is caused by the fault of the vessel, such basic allowed laytime will be increased by the duration of such delay that occurred after laytime commenced.

(iii) If regulations of the owner, operator of the vessel, Customs Officials, or Port Authority prohibit loading at any time after laytime commenced, time so lost shall be added to the basic allowed laytime.

(iv) If for any reason the Contractor is delayed in loading the barge or there is a delay in releasing the vessel for sailing because of action of the U.S. Government that arises out of causes beyond the control and without the fault or negligence of the Contractor, such basic allowed laytime shall be increased by the duration of such delay.

F15 BARGE AND/OR T1 CLASS TANKER DEMURRAGE AND LOADING CONDITIONS (DESC MAR 1994)
CONT'D

(v) If the vessel requests cargo tanks be cushioned or topped off during the loading process and the quantity of product cushioned or topped including the time spent cushioning/topping tanks is noted on the DD Form 250-1, Loading/Inspection Report, the basic allowed laytime shall be increased by the difference between the actual time taken to cushion/top tanks and the amount of time required to pump the same quantity of cushioned/topped product at the Contractor's actual loading rate exclusive of cushioning/topping time and cushioning/topping quantity.

(vi) Contractor will be allowed up to 4 hours of additional laytime following removal of cargo hoses until vessel is released by the inspector in order to accomplish tasks required under the CONTRACTOR INSPECTION RESPONSIBILITIES clause.

(vii) There will be no increases made to the basic allowed laytime (nor other reductions to any resulting demurrage time) for saved laytime arising out of other loadings.

(viii) Delays, after commencement of laytime, attributed to causes beyond the control and without the fault or negligence of the Contractor or the U.S. Government will result in increasing basic allowed laytime for one half of the delay.

(e) For all hours of laytime that elapse in excess of allowed laytime for loading provided for by paragraph (d) above, demurrage shall be paid by the Contractor as follows:

(1) **TIME CHARTER VESSELS.** At the demurrage rate for the vessel loaded, computed to the nearest whole hour, as published by the Military Sealift Command, and in effect on the date loading of the vessel is completed.

(2) The demurrage rate set forth in the Carrier's Tender of Freight Services and Demurrage Invoice to the Government.

(3) **CONTRACT VESSELS.** At the hourly rate specified in the contract.

(f) Hoses for loading a vessel shall be furnished, connected, and disconnected by the Contractor; loading arm shall be connected and disconnected by the Contractor.

(b) The permissible variation shall be limited to--

G9.09**MANDATORY INFORMATION FOR ELECTRONIC FUNDS TRANSFER PAYMENT (AUG 1997) CONT'D**

The Contractor shall provide the following information for both methods in a form acceptable to the designated payment office. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause).

- (1) The contract number to which this notice applies.
- (2) The Contractor's name and remittance address, as stated in the contract, and account number at the Contractor's financial agent.
- (3) The signature (manual or electric, as appropriate), title, and telephone number of the Contractor official authorized to provide this information.
- (4) For ACH payments only:
 - (i) Name, address, and 9-digit Routing Transit Number of the Contractor's financial agent.
 - (ii) Contractor's account number and the type of account (checking, saving, or lockbox).
- (5) For Federal Reserve Wire Transfer System payment only:

(ii) If the Contractor's financial agent is not directly online to the Federal Reserve Wire Transfer System and, therefore, not the receiver of the wire transfer payment, the Contractor shall also provide the name, address, and 9-digit Routing Transit Number of the correspondent financial institution receiving the wire transfer payment.

(e) **SUSPENSION OF PAYMENT.**

(1) Notwithstanding the provisions of any other clause of this contract, the Government is not required to make any payment under this contract until after receipt, by the designated payment office, of the correct EFT payment information from the Contractor or a certificate submitted in accordance with paragraph (b) of this clause. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a valid invoice or contract financing request as defined in the PROMPT PAYMENT clause of this contract.

(2) If the EFT information changes after submission of correct EFT information, the Government shall begin using the changed EFT information no later than the 30th day after its receipt to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the changed EFT information is implemented by the payment office. If such suspension would result in a late payment under the PROMPT PAYMENT clause of this contract, the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.

(f) **CONTRACTOR EFT ARRANGEMENTS.** The Contractor shall designate a single financial agent capable of receiving and processing the electronic funds transfer under the EFT methods described in paragraph (d) of this clause. The Contractor shall pay all fees and charges for receipt and processing transfers.

(g) **LIABILITY FOR UNCOMPLETED OR ERRONEOUS TRANSFERS.**

(1) If an uncompleted or erroneous transfer occurs because the Government failed to use the Contractor provided EFT information in the correct manner, the Government remains responsible for (i) making a correct payment, (ii) paying any prompt payment penalty due, and (iii) recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because Contractor provided EFT information was incorrect at the time of Government release of the EFT payment transaction instruction to the Federal Reserve System, and

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously direct funds; or

(ii) If the funds remain under the control of the payment office, the Government retains the right to either make payment by mail or suspend the payment in accordance with paragraph (e) of this clause.

(h) **EFT AND PROMPT PAYMENT.**

(1) A payment shall be deemed to have been made in a timely manner in accordance with the PROMPT PAYMENT clause of this contract if, in the EFT payment transaction instruction given to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(2) When payment cannot be made by EFT because of incorrect EFT information provided by the Contractor, no interest penalty is due after the date of the uncompleted or erroneous payment transaction, provided that notice of the defective EFT information is issued to the Contractor within 7 days after the Government is notified of the defective EFT information.

In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information which shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (e) of this clause.

(j) **PAYMENT OFFICE DISCRETION.** If the Contractor does not wish to receive payment by EFT methods for one or more payments, the Contractor may submit a request to the designated payment office to refrain from requiring EFT information or using the EFT payment method. The decision to grant the request is solely that of the Government.

The Government shall use the changed data in accordance with paragraph (e)(2) of this clause. The Contractor agrees that the information provided by the agent is deemed to be correct information as if it were provided by the Contractor. The Contractor agrees that the agent's notice of changed EFT data is deemed to be a request by the Contractor in accordance with paragraph (e)(2) that no further payments be made until the changed EFT information is implemented by the payment office.

(4) DoD has established a goal of registering an applicant in the CCR database within 48 hours after receipt of a complete and accurate application via the Internet. However, registration of an applicant submitting an application through a method other than the Internet may take up to 30 days. Therefore, offerors that are not registered should consider applying for registration immediately upon receipt of this solicitation.

(c) The Contractor is responsible for the accuracy and completeness of the data within the CCR, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to confirm on an annual basis that its information in the CCR database is accurate and complete.

(d) Offerors and contractors may obtain information on registration and annual confirmation requirements by calling 1-888-227-2423 or via the Internet at <http://ccr.edi.disa.mil>.

All applicable Federal, State, and local taxes and duties means all taxes and duties that the taxing authority, including Puerto Rico and other possessions of the United States, are imposing and collecting on the transactions or property covered by this contract pursuant to written ruling or regulation in effect on the contract date.

(5) **JET FUEL.** The FET of \$0.219 per gallon should be included on the Contractor's invoice as a separate item.

A Contractor authorized by IRS to sell fuel tax free should not invoice the FET on sales to the National Guard or on sales of jet fuel for military aircraft, aviation gasoline for military aircraft, motor gasoline used off-highway, and gasohol used off-highway. The ordering officer should be contacted for information on amounts of fuel used off-highway.

(b) **STATE AND LOCAL TAXES EXCLUDED.** All contract prices exclude State and local excise taxes on fuels (including gasoline taxes, motor fuel taxes, diesel fuel taxes, special fuel taxes, aircraft fuel taxes, jet fuel taxes, heating oil taxes, kerosene taxes, lubricating oil taxes, and naphtha, solvent, benzol, and benzine taxes). I28.03-2 TAX EXEMPTION CERTIFICATES (DESC AUG 1995)

(a) **FEDERAL, STATE, AND LOCAL EXCISE TAXES.** Contractor's request for tax exemption certificates covering any Federal, State, local excise tax, or Kentucky Sales and Use Tax excluded from the contract price pursuant to the terms of this contract shall be forwarded with Contractor's invoices or as otherwise indicated by the Ordering Officer, except for (1) deliveries of motor gasoline or diesel fuel to Army and Navy activities, in which case requests for tax exemption certificates should be forwarded to the Ordering Officer, and (2) deliveries of all fuels to the National Guard, in which case such activities shall indicate the procedure for processing tax exemption certificates.

(b) **GOVERNMENT OPTION TO DEDUCT TAX AND FURNISH TAX EXEMPTION CERTIFICATES.** If this contract provides that the Contractor is to invoice for the Federal tax, the supplies to be furnished under such item at the time this contract is entered into are generally intended for a purpose for which tax exemption cannot be claimed. However, in instances where the invoice price for any item includes the excise tax and tax exemption can be claimed, the applicable tax may be deducted from the order or the invoice by the Government and a tax exemption certificate furnished in lieu of paying the tax. Tax exemption certificates to be furnished under this paragraph (b) will be issued by the Ordering Officer.

(DESC 52.229-9F10)

I33 INTEREST (JUN 1996)

(c) The interest charge made under this clause may be reduced under the procedures prescribed in 32.614-2 of the Federal Acquisition Regulation in effect on the date of this contract.

(FAR 52.232-17)

I84 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the ORDERING clause. Subject to any limitations in the ORDER LIMITATIONS clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the ORDERING clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

184 REQUIREMENTS (OCT 1995) CONT'D

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; PROVIDED, that the Contractor shall not be required to make any deliveries under this contract after 30 days after ordering period expires. (FAR 52.216-21)

186.03 DELIVERY-ORDER LIMITATIONS (PC&S) (DESC MAY 1996)

This clause is applicable only to tank truck and tank wagon deliveries.

(a) **MINIMUM ORDER.** The Contractor shall not be obligated to honor any order under this contract for less than the minimum quantity applicable to the method of delivery called for by the item(s) as specified in the DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS clause.

(b) **MAXIMUM ORDER.** Unless otherwise stated in the Schedule, the Contractor shall not be obligated to honor any order for a single item/a combination of items/a series of orders from the same ordering office, within any given 30-day period, in excess of whichever of the following is applicable:

(1) If the total estimated contract quantity is 100,000 gallons or less, the Contractor shall not be required to deliver a quantity in excess of the total estimated contract quantity of the item/all the items/all the items on all the orders;

(2) If the total estimated contract quantity is between 100,000 and 500,000 gallons, the Contractor shall not be required to deliver a quantity in excess of 50 percent of the total estimated contract quantity of the item/all the items/all the items on all the orders, or 100,000 gallons, whichever is greater; or

(3) If the total estimated contract quantity is greater than 500,000 gallons, the Contractor shall not be required to deliver a quantity in excess of 35 percent of the total estimated contract quantity of the item/all the items/all the items on all the orders, or 250,000 gallons, whichever is greater.

(c) The Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in (b) above.

(d) Notwithstanding the foregoing, the Contractor shall honor any order received which exceeds the maximum order limitations set forth above unless the Contractor verbally notifies the Ordering Officer within two workdays, followed by the return of the written orders to the ordering office, that he does not intend to make shipment of the items called for and the reasons therefor. When the Government has received this verbal notice, the Government may secure the supplies from another source.

(e) Nothing in either (b) or (c) above shall be construed to require a Contractor to furnish supplies in excess of the quantity directed to be supplied by the Department of Energy, in the event of a directed allocation, pursuant to the ALLOCATION clause.

(DESC 52.216-9F11)

1115 CONTRACTOR RESPONSIBILITY FOR RETURNING UNDELIVERED FREIGHT (APR 1984)

(a) When, through no fault of the Contractor, a shipment cannot be delivered, the Contractor shall contact the shipper for disposition instructions. If the shipment is ordered returned to the origin point, the charges assessed for the return trip shall be the same as the charges assessed for the outbound trip. The shipper shall maintain a record of the goods that, through no fault of the Contractor, could not be delivered and are returned to the shipper. If, at a future date, the returned goods are determined to be related to a claim against the Contractor, the claim will be adjusted accordingly.

(b) When, through the fault of the Contractor, a shipment cannot be delivered, the Contractor shall return the shipment to the origin point at no charge to the Government. Any charges incurred for redelivery, which are in excess of the charges that would have been incurred under this contract, shall be for the Contractor's account in accordance with the DEFAULT clause of the contract.

(FAR 52.247-16)

1171.01-2 SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN (ALT II) (MAR 1996)

(a) This clause does not apply to small business concerns.

(b) **DEFINITIONS.**

(1) **Commercial product**, as used in this clause, means a product in regular production that is sold in substantial quantities to the general public and/or industry at established catalog or market prices. It also means a product that, in the opinion of the Contracting Officer, differs only insignificantly from the Contractor's commercial product.

I171.01-2 SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN (ALT II) (MAR 1996) CONT'D

(2) **Subcontract**, as used in this clause, means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contracting or subcontractor calling for supplies or services required for performance of the contract or subcontract.

(c) Proposals submitted in response to this solicitation shall include a subcontracting plan, which separately addresses subcontracting with small business concerns, small disadvantaged business concerns, and women-owned small business concerns. If the offeror is submitting an individual contract plan, the plan must separately address subcontracting with small business concerns, small disadvantaged business concerns, and women-owned small business concerns with a separate part for the basic contract and separate parts for each option (if any). The plan shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. Failure to submit and negotiate a subcontracting plan shall make the offeror ineligible for award of a contract.

(d) The offeror's subcontracting plan shall include the following:

(1) **Goals**, expressed in terms of percentage of total planned subcontracting dollars, for the use of small business concerns, small disadvantaged business concerns, and women-owned small business concerns as subcontractors. The offeror shall include all subcontracts that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs.

(2) A statement of--

- (i) Total dollars planned to be subcontracted;
- (ii) Total dollars planned to be subcontracted to small business concerns;
- (iii) Total dollars planned to be subcontracted to small disadvantaged business concerns; and
- (iv) Total dollars planned to be subcontracted to women-owned small business concerns.

(3) A description of the principal types of supplies and services to be subcontracted, and an identification of the types planned for subcontracting to (i) small business concerns; (ii) small disadvantaged business concerns; and (iii) women-owned small business concerns.

(4) A description of the method used to develop the subcontracting goals in paragraph (d)(1) of this clause.

(5) A description of the method used to identify potential sources for solicitation purposes (e.g., existing company source lists, the Procurement Automated Source System (PASS) of the Small Business Administration, the National Minority Agency in the Department of Commerce, or small, small disadvantaged and women-owned small business concerns trade associations). A firm may rely on the information contained in PASS as an accurate representation of a concern's size and ownership characteristics for purposes of maintaining a small business source list. Use of the PASS as an accurate representation of a concern's size and ownership characteristics for purposes of maintaining a small business source list. Use of the PASS as its source list does not relieve a firm of its responsibilities (i.e., outreach, assistance, counseling, publicizing subcontracting opportunities) in this clause.

(6) A statement as to whether or not the offeror included indirect costs in establishing subcontracting goals, and a description of the method used to determine the proportionate share of indirect costs to be incurred with (i) small business concerns; (ii) small disadvantaged business concerns; and (iii) women-owned small business concerns.

(7) The name of the individual employed by the offeror who will administer the offeror's subcontracting program, and a description of the duties of the individual.

(8) A description of the efforts the offeror will make to assure that small, small disadvantaged, and women-owned small business concerns have an equitable opportunity to compete for subcontracts.

(9) Assurances that the offeror will include the UTILIZATION OF SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS CONCERNS clause in the contract and all subcontracts that offer further subcontracting opportunities, and that the offeror will require all subcontractors (except small business concerns) who receive subcontracts in excess of \$500,000 (\$1,000,000 for construction of any public facility) to adopt a plan similar to the plan agreed to by the offeror.

(10) Assurances that the offeror will (i) cooperate in any studies or surveys as may be required, (ii) submit periodic reports in order to allow the Government to determine the extent of compliance by the offeror with the subcontracting plan, (iii) submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, and/or SF 295, Summary Subcontract Report, in accordance with the instructions on the forms, and (iv) ensure that its subcontractors agree to submit Standard Forms 295 and 295.

(11) A recitation of the types of records the offeror will maintain to demonstrate procedures that have been adopted to comply with the requirements and goals in the plan, including establishing source lists, and a description of its efforts to locate small, small disadvantaged, and women-owned small business concerns and award subcontracts them. The records shall include at least the following (on a plant-wide or company-wide basis, unless otherwise indicated):

I171.01-2 SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN (ALT II) (MAR 1996) CONT'D

- (i) Source lists, e.g., PASS guides, and other data identify small, small disadvantaged, or women-owned small business concerns.
- (ii) Organizations contacted in an attempt to locate sources that are small, small disadvantaged, or women-owned small business concerns.
- (iii) Records on each subcontract solicitation resulting in an award of more than \$100,000 indicating (A) whether small business concerns were solicited and if not, why not, (B) whether small disadvantaged business concerns were solicited and if not, why not, (C) whether women-owned small business concerns were solicited and if not, why not, and (D) if applicable, the reason award was not made to a small business concern.
- (iv) Records of any outreach efforts to contact (A) trade associations, (B) business development organizations, and (C) conferences and trade fairs to locate small, small disadvantaged, and women-owned small business sources.
- (v) Records of internal guidance and encouragement provided to buyers through (A) workshops, seminars, training, etc., and (B) monitoring performance to evaluate compliance with program's requirements.
- (vi) On a contract-by-contract basis, records to support award data submitted by the offeror to the Government, including the name, address, and business size of each subcontractor. Contractors having company or division-wide annual plans need not comply with this requirement.
- (e) In order to effectively implement this plan to the extent consistent with efficient contract performance, the Contractor shall perform the following functions:
 - (1) Assist small, small disadvantaged, and women-owned small business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. Where the Contractor's list of potential small, small disadvantaged, and women-owned small business subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.
 - (2) Provide adequate and timely consideration of the potentialities of small, small disadvantaged, and women-owned small business concerns in all "make-or-buy" decisions.
 - (3) Counsel and discuss subcontracting opportunities with representatives of small, small disadvantaged, and women-owned small business firms.
 - (4) Provide notice to subcontractors concerning penalties for misrepresentation of business status as small, small disadvantaged, or women-owned small business for the purposes of obtaining a subcontract that is to be included as part or all of a goal contained in the Contractor's subcontracting plan.
- (f) A master subcontracting plan on a plant or division-wide basis which contains all the elements required by (d) above, except goals, may be incorporated by reference as a part of the subcontracting plan required of the offeror by this clause; PROVIDED, (1) the master plan has been approved, (2) the offeror provides copies of the approved master plan and evidence of its approval to the Contracting Officer, and (3) goals and any deviations from the master plan and deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.
- (g) (1) If a commercial product is offered, the subcontracting plan required by this clause may relate to the offeror's production generally, for both commercial and noncommercial products, rather than solely to the Government contract. In these cases, the offeror shall, with the concurrent of the Contracting Officer, submit one company-wide or division-wide annual plan.
- (2) The annual plan shall be reviewed for approval by the agency awarding the offeror its first prime contract requiring a subcontracting plan during the fiscal year or by an agency satisfactory to the Contracting Officer.
- (3) The approval plan shall remain in effect during the offeror's fiscal year for all of the offeror's commercial products.
- (h) Prior compliances of the offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the offeror for award of the contract.
- (i) The failure of the Contractor or subcontractor to comply in good faith with (1) the UTILIZATION OF SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS CONCERNS clause of the contract, or (2) an approved plan required by this clause, shall be a material breach of the contract.

(FAR 52.219-9/ALT II)

1171.07 LIQUIDATED DAMAGES - SUBCONTRACTING PLAN (OCT 1995)

(a) **Failure to make a good faith effort to comply with the subcontracting plan**, as used in this subpart, means a willful or intentional failure to perform in accordance with the requirements of the subcontracting plan approved under the clause in this contract entitled SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN, or willful or intentional action to frustrate the plan.

(b) If, at contract completion, or in the case of a commercial products plan, at the close of the fiscal year for which the plan is applicable, the Contractor has failed to meet its subcontracting goals and the Contracting Officer decides in accordance with paragraph (c) of this clause that the Contractor failed to make a good faith effort to comply with its subcontracting plan, established in accordance with the clause in this contract entitled SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN, the Contractor shall pay the Government liquidated damages in an amount stated. The amount of probable damages attributable to the Contractor's failure to comply, shall be an amount equal to the actual dollar amount by which the Contractor failed to achieve each subcontract goal or, in the case of a commercial products plan, that portion of the dollar amount allocable to Government contracts by which the Contractor failed to achieve each subcontract goal.

(c) Before the Contracting Officer makes a final decision that the Contractor has failed to make such good faith effort, the Contracting Officer shall give the Contractor written notice specifying the failure and permitting the Contractor to demonstrate what good faith efforts have been made. Failure to respond to the notice may be taken as an admission that no valid explanation exists. If, after consideration of all the pertinent data, the Contracting Officer finds that the Contractor failed to make a good faith effort to comply with the subcontracting plan, the Contracting Officer shall issue a final decision to that effect and require that the Contractor pay the Government liquidated damages as provided in paragraph (b) of this clause.

(d) With respect to commercial products plans; i.e., company-wide or division-wide subcontracting plans approved under paragraph (g) of the clause in this contract entitled SMALL, SMALL DISADVANTAGED, AND WOMEN-OWNED SMALL BUSINESS SUBCONTRACTING PLAN, the Contracting Officer of the agency that originally approved the plan will exercise the functions of the Contracting Officer under this clause on behalf of all agencies that awarded contracts covered by that commercial product plan.

(e) The Contractor shall have the right of appeal, under the clause in this contract entitled DISPUTES, from any final decision of the Contracting Officer.

(f) Liquidated damages shall be in addition to any other remedies that Government may have.

(FAR 52.219-16)

1179 ALLOCATION (DESC JUL 1995)

(a) **REDUCED SUPPLIES.** If, for any cause beyond the control and without the fault or negligence of the Contractor, the total supply of crude oil and/or refined petroleum product is reduced below the level that would have otherwise been available to the Contractor, the Contractor allocates to its regular customers its remaining available supplies of crude oil or product, then the Contractor may also allocate to the U.S. Government supplies to be delivered under this contract, PROVIDED--

(1) Prompt notice of and evidence substantiating the necessity to allocate and describing the allocation rate for all the Contractor's customers are submitted to the Contracting Officer;

(2) Allocation among the Contractor's regular customers is made on a fair and reasonable basis (except where allocation on a different basis is required by a governmental authority, agency, or instrumentality); and

(3) Reduction of the quantity of product due the Government under this contract shall not exceed the pro rata amount by which the Contractor reduces delivery to its other customers similarly situated.

(b) **ADDITIONAL SUPPLIES.** If, after the event causing the shortage of crude oil and/or refined petroleum product as described in (a) above, additional supply becomes available to the Contractor, the Contracting Officer may choose any one of the following three possible courses of action:

(1) Accept an updated pro rata reduction as outlined in (a) above;

(2) Determine that continuance of the contract with the quantities as originally stated in the Schedule is in the best interests of the Government; or

(3) Terminate the contract as permitted in (d) below.

I179 ALLOCATION (DESC JUL 1995) CONT'D

(c) **REDUCED DELIVERIES.** If the Contractor believes that a law, regulation, or order of a foreign government requires the Contractor to deliver less than the quantity set forth in the Schedule for any location within that country, the Contractor may request allocation in accordance with (a) above. In addition to the criteria in (a) above, the Contractor's request shall cite--

- (1) The law, regulation, or order, furnishing copies of the same;
- (2) The authority under which it is imposed; and
- (3) The nature of the Government's waiver, exception, and enforcement procedure.--

The Contracting Officer will promptly review the matter and advise the Contractor whether or not the need to allocate has been substantiated. If the law, regulation, or order requiring the Contractor to reduce deliveries ceases to be effective, the Contractor shall resume deliveries in accordance with the original Schedule.

(d) If, as a result of reduced deliveries permitted by (a), (b), or (c) above, the Contracting Officer decides that continuation of this contract is no longer in the best interests of the Government, the Government may terminate this contract or any quantity thereunder, by written notice, at no cost to the Government. However, the Government shall not be relieved of its obligation to pay for supplies actually delivered to and accepted by it.

(e) Except as otherwise stated in (b) above, any volumes omitted pursuant to (a) or (b) above shall be deleted from this contract, and the Contractor shall have no continuing obligation, so far as this contract is concerned, to make up such omitted supplies.

(f) For Posts, Camps, and Stations contracts, Department of Energy priority orders and allocation regulations will take precedence over any conflicting provisions of this clause.

(g) For Bulk Fuels contracts, the provisions contained in (a) above shall be inoperative when the Secretary of Defense makes a written determination that it is essential to the National Defense that the Defense Energy Support Center be provided contract volumes exceeding the amount of product to which it would otherwise be entitled.

(DESC 52.249-9F01)

I186 PROTECTION OF GOVERNMENT PROPERTY AND SPILL PREVENTION (DESC MAY 1978)

(a) The Contractor shall use reasonable care to avoid damaging or contaminating existing buildings, equipment, asphalt pavement, soil, or vegetation (such as trees, shrubs, and grass) on the Government installation. If the Contractor fails to use reasonable care and damages or contaminates any such buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities, he shall replace the damaged items or repair the damage at no expense to the Government and to the satisfaction of the Government. Further, if, as a result of the failure of the Contractor to comply with the requirements of this contract, Government buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities become damaged or destroyed, the Contractor shall replace or repair the damage at no expense to the Government, and to the satisfaction of the Government. Should the Contractor fail or refuse to make such repairs or replacements, the Government may have the said repairs or replacement accomplished, and the Contractor shall be liable for the cost thereof which may be deducted from the amounts which become due under this contract. Informal agreement with the Contractor upon replacement, repairs, or costs to be deducted shall first be attempted by the Installation Commander or Ordering Officer. If disagreement persists, the matter shall be referred to the Contracting Officer. Unless approved by the Contracting Officer, no costs shall be deducted from amounts due or owing without the Contractor's consent.

(b) The Contractor shall take all measures as required by law to prevent oil spills (including, but not limited to, any spilling, leaking, pumping, pouring, emitting, emptying or dumping into or onto any land or water). In the event the Contractor spills any oil (including, but not limited to, gasoline, diesel fuel, fuel oil, or jet fuel), the Contractor shall be responsible for the containment, cleanup, and disposal of the oil spilled. Should the Contractor fail or refuse to take the appropriate containment, cleanup, and disposal actions, the Government may do so itself. The Contractor shall reimburse the Government for all expenses incurred including fines levied by Federal, State, or local Governments. (DESC 52.223-9F05)

I190.04 MATERIAL SAFETY DATA SHEETS -- COMMERCIAL ITEMS (DESC MAR 1996)

(a) The apparently successful offeror agrees to submit, for each item prior to award, a Material Safety Data Sheet, meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all items to be delivered under this contract. Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Material Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.

(b) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (a) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

I190.04 MATERIAL SAFETY DATA SHEETS -- COMMERCIAL ITEMS (DESC MAR 1996) CONT'D

(c) The Contractor shall submit MSDSs to the Contracting Officer. MSDSs must cite the solicitation number, the applicable CAGE code of the manufacturer, and, where so identified, the National Stock Number (NSN).

(d) The offeror need not submit a duplicate MSDS for a product for which the offeror has submitted an MSDS within the past five years. The MSDS of record must fully comply with the latest revision of FED-STD-313, and the data on the MSDS must still be current and complete. Should the description/composition of the product offered differ in any area specified on a previously submitted MSDS, a new MSDS is required.

I209.09 EXTENSION PROVISIONS (PC&S) (DESC OCT 1994)

(a) The DESC Contracting Officer reserves the right to unilaterally extend this contract on the same terms and conditions one or more times for a total of no more than six months. Notice of contract extension will be furnished to the Contractor 30 days prior to expiration of this contract or any extension thereof. However, nothing in this clause precludes the Contractor from agreeing to an extension of the contract if the DESC Contracting Officer fails to issue the notice within the 30 day time frame.

(b) The foregoing extension may be exercised by the DESC Contracting Officer where continued performance is required until a follow-on contract is awarded or, in the event a follow-on contract has been awarded, until a succeeding Contractor is positioned to commence performance.

(c) Extension of this contract shall be considered to have been accomplished at the time the DESC Contracting Officer provides written notification to the Contractor by facsimile or by mail. (DESC 52.217-9F08)

I211 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from 01 Jan 1999 through 31 Dec 2000.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally by facsimile, or by electronic commerce methods only if authorized in the Schedule. (FAR 52.216-18)

I229 RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT (OCT 1995)

(a) Except as provided in (b) below, the Contractor shall not enter into any agreement with an actual or prospective subcontractor, nor otherwise act in any manner, which has or may have the effect of restricting sales by such subcontractors directly to the Government of any item or process (including computer software) made or furnished by the subcontractor under this contract or under any follow-on production contract.

(b) The prohibition in paragraph (a) of this clause does not preclude the Contractor from asserting rights that are otherwise authorized by law or regulation. For acquisitions of commercial items, the prohibition in paragraph (a) applies only to the extent that any agreement restricting sales by subcontractors results in the Federal Government being treated differently from any other prospective purchaser for the sale of the commercial item(s).

(c) The Contractor agrees to incorporate the substance of this clause, including this paragraph (c), in all subcontracts under this contract that exceed \$100,000. (FAR 52.203-6)
